Turntable Bearing Installation Kits

The Turntable Bearing Installation Kits are designed for quick and efficient installation. For convenience, all kits include the necessary installation hardware.

- Simple ordering process with a kit; one part number replaces individual pieces
- Model- and serial-number-specific for easy reference
- Kits include hardware needed for installation

Aerial Lift Wear Pad Kits

When your machine needs maintenance, JLG is your only true source of reliable and factory-approved parts. Our service kits are set up to help you identify the correct parts for the JLG® equipment in your fleet. Proper boom maintenance will help you achieve optimum productivity with your equipment.

- Model-specific with serial number breaks
- Contain wear pads, shims and required hardware
- Great for boom reconditioning or applicable OSHA-required boom teardowns

Aerial Wire Rope Kits

When your machine needs maintenance, JLG is your only true source of reliable and factory-approved parts. Our service kits are set up to help you identify the correct parts for the JLG® equipment in your fleet. Proper boom maintenance will help you achieve optimum productivity with your equipment.

- Model-specific with serial number breaks
- Contain wire ropes, sheaves, sheave pins and required hardware
- Great for boom reconditioning or OSHA-required replacement

Aerial Boom Hose Kits

Everybody knows that downtime is expensive, and the best way to avoid it is by doing regularly scheduled preventive maintenance on your machine. One of the biggest and most labor intensive maintenance projects on a boom lift is the boom teardown. When the boom is torn down, there is no better time to replace the hoses in the power track, which can have wear that is challenging to detect. For this reason, JLG has put together kits to replace those upper boom hoses, complete with all the hoses that are exposed to the harsh elements and continuous motion associated with the power track. These are the same high-quality hoses we put on our machines from the factory, and JLG has already done the work to navigate through serial number breaks and build changes to ensure you get the right parts the first time, with only one part number to order. So the next time your machine is scheduled for boom maintenance, don't forget to purchase a boom hose kit, and take a step toward eliminating your unscheduled downtime.

- · Model-specific with serial number breaks
- Contain all the hoses associated with the upper power track
- Great for boom reconditioning
- · Eliminate extensive research

Aerial Decal Kits

Kits are designed with the intention of replacing the decals on the exterior of the machine. Kits will not contain decals located under the hood, inside covers or on the platform or control boxes.

- Model-specific with serial number breaks
- Simplified ordering process
- Great for reconditioning
- Eliminates extensive research

Retrofit Steel Hood Kits

Our factory-approved steel hoods are now available for your existing fleet. The retrofit kits consist of a complete steel hood assembly package, including mounting weldments and hardware, along with detailed instructions to guide you through the installation process. The robust nature of steel hoods provides additional protection from damaging elements, keeping your maintenace costs down. Furthermore, the painted hoods will maintain their color comparable with other steel components on the machine, improving aesthetics throughout the life of your equipment.

- Increased durability and improved long-term value
- · Robust design
- Lower cost of ownership

Platform Console Decal Kits

JLG has completed the busy work for you by establishing platform console decal kits. Kits have been added to reference serial number breaks to help save confusion for ordering and application. All decals are exact replacements and specific for models and serial number breaks.

Features/Benefits

- Kits contain all necessary decals for entire platform control box
- New kits added for specific machine models and serial number breaks
- Eliminate the research time required to identify all required decals

Note: Kits are designed for ANSI spec machines. For machines built to other specifications please contact JLG.

Note: Refer to the appropriate manual for your machine to ensure proper decal installation. Kits are designed for ANSI spec machines.

Platform Decal Kits

When replacing the platform on your JLG® machine, you also need the proper JLG standard decals. Locating the correct decals for your platform has been made easier with platform decal kits.

- Simple ordering process with one kit number per machine
- Great for new platforms or reconditioning existing platforms
- Kits are designed for specific machines

SkyPower® Kits

The JLG SkyPower® Package enables the addition of many productivity enchancing accessories. Machines with the SkyPower System are equipped with a self-contained 7500W generator with a power cable and an integrated air line. In addition to providing self-contained AC power to operate hand tools, the SkyPower system enables other accessories to be conveniently added, including SkyWelder® and SkyCutter® packages.

Features/Benefits

- Increased machine productivity
- Increased machine value
- Fuel savings when compared to a ground-based generator
- · No need for generator repositioning
- Six-hour installation time

Power "JLG Workstation in the Sky" Accessories

A self-contained 7500W generator provides the power to the platform for tools, lights or JLG accessories, creating a "Workstation in the Sky"." The integrated power cable and air line allow you to quickly attach or detach a variety of JLG accessories.

SkyPower Kits

Machine Model	Engine Brand	KIt Part Number
4005	GM Engine	1001118105
400S	Deutz Engine	1001116162
600S	Deutz Engine	1001116159
800S	Deutz Engine	1001116163

Note: Features and benefits from ClearSky on retrofitted machines may be limited, based on year, make and model of machine.

How Do I Place an Order?

- Call our Aftermarket Parts Call Center at 877-554-5438
- Visit www.clearskyjlg.com for more information
- Contact the ClearSky Team for activation and subscription

ClearSky® Kits

Available as and option on new units or retrofitted to existing aerial work platforms, ClearSky* provides constant visibility for your equipment, in real time, 24 hours a day, 7 days a week.

Features/Benefits

- · Each kit includes:
 - -TCU (Tele-Communications Unit) Box with GPS antennae and hardware
 - -Decals
- -Installation, diagnostics and replacement parts manual
- -Quick start installation guide
- -Web Center user guide
- All GPS and cellular data is routed through our ClearSky Web Center and must be maintained through Online Express, and individual access must indicate ClearSky option at the time of machine purchase
- Remote access view/functionality includes:
 - -Manage/view machine alerts—Receive notifications on faults, alarms and ignition/engine status
- -Create/manage geofences—Receive notifications of fence violations, view breadcrumbs, create placemarks
- -Displays and reports—Includes on-demand option
- -Maintenance planner—Receive notification reminders of upcoming service
- Eliminate the research time required to identify all required decals

Boom Lift Filter Kits

Maintain your JLG® boom lift with proper filter changes and scheduled maintenance. Protect your investment and reduce future cost of ownership with JLG filter kits.

Convenience and Peace of Mind

Order one part number and receive factory-approved filters for your specific machine.

Included in Kit (when applicable):

- Engine oil filter
- Primary and secondary fuel filters
- Primary and secondary air filters
- Hydraulic pressure/charge and return filters
- Platform hydraulic filter

Refer to Machine Service and Maintenance Manual for proper service intervals and procedures.

ES Control Cable Kits

Coiled control cable kits are available for all JLG® ES Scissor Lifts. These kits are designed to retrofit those machines built prior to May 2007, but also make it simple to replace the control cable on newer models as well. The coiled cable provides better management of the platform workspace and allows the platform extension to move in and out without interference, all while keeping the cable out of the operator's way and off of the platform floor. These kits come complete with installation instructions, new corner hooks and any required hardware, all at a substantial savings over buying the cable alone.

Note: ES Series control box with coiled cable and curved storage bracket.

ES Coiled Cable Kits

Machine Model	Kit Number
1930ES	1001104466
2030ES/2630ES	1001104467
2646ES/3246ES	1001104468

ES Scissor Decal Kits

Has time on the job site been unkind to your ES Scissor? Give it a facelift. JLG now has decal kits available for the ES line of scissor lifts. These kits make locating the correct decals for your machine easier. Purchase one part number and recieve all of the decals required.

Features & Benefits

- Six model-specific decal kits that include all decals necessary for your machine
- One convenient part number instead of time consuming research
- Reduced cost by purchasing a kit over indivdual components
- Ideal for reconditioning your machine

ES Decal Kits

Machine Model	Kit Type	Kit Number
1230ES	Complete Decal Kit	1001149794
1930ES	Complete Decal Kit	1001149795
2030ES	Complete Decal Kit	1001149796
2630ES	Complete Decal Kit	1001149797
2646ES	Complete Decal Kit	1001149798
3246ES	Complete Decal Kit	1001149799

Telehandler Chain Kits

JLG® Aftermarket Parts now offers chain replacement kits for JLG and Gradall® telehandlers. Easy to research and simple to order, a single part number will provide everything needed to replace your telehandler chains.

- Kits include all components required to replace telehandler boom chains or cables
- · Model-specific for easy ordering
- Chains, clevises, pins, retaining rings, chain blocks, stop springs and hardware included
- Save money by consolidating parts
- · Save time by eliminating costly research
- Receive all parts in one convenient shipment
- Easy ordering through Online Express
- Free freight on economy orders

Note: Sheaves and sheave hardware sold separately.

Telehandler Wear Pad Kits

When your machine needs maintenance, JLG is your only true source of reliable and factory-approved parts. Our service kits are set up to help you identify the correct parts for the JLG® equipment in your fleet. Proper boom maintenance will help you achieve optimum productivity with your equipment.

Features/Benefits

- Model-specific with serial number breaks
- Kit includes wear pads, shims, spacers and required hardware
- Eliminate extensive research
- A must for boom reconditioning

NOTE: Please see Online Express or call the Parts Marketing Dept to see if your machine can be fitted with a cab enclosure kit.

Heater assembly sold separately

Vinyl Cab Enclosure Kits

Stay comfortable and on schedule with a factory authorized Vinyl Enclosure Kit and heater assembly from JLG. The Vinyl Enclosure Kits will offer you an extra layer of protection from wet, cold and windy weather. These kits are easily installed, no tools required.

Features/Benefits

- 1-year limited warranty
- Glass windshield and skylight
- Quick installation
- · Help protect the interior of your cab
- Allow the operator to work in comfort
- · Designed for each individual model
- Heater option available

NOTE: *Due to serial number breaks, please refer to the Parts Manual for proper part numbers.

^{**}Always remove vinyl components of the kit(s) during transport of machine.

Fall Arrest Platform Kits

When your work requires that you exit the platform, JLG helps keep you safe and mobile with our Fall Arrest Platforms. These platforms use a cable system that allows the operator to leave the platform and move freely without detaching the safety harness. This helps keep the operator tethered to the platform at all times.

Features/Benefits

- Available for a variety of boom lift applications, including aviation and steel erection
- Full 270° access around and 6 ft beyond the platform
- · Allow workers to walk outside the platform
- Enhance operator protection

NOTES:

- Purchase and installation of platform does not guarantee compliance with all federal, state and/or local statues. It is the responsibility of the customer to verify any and all applicable laws that may pertain to their equipment.
- The operator must use fall protection at all times. A full body harness and shock absorbing lanyard, not to exceed 6 ft in length, are required when using the external fall arrest system.
- The capacity of the External Fall System is 310 lb/one person maximum.
- Machines with Fall Arrest only. Machines with Soft Touch Fall Arrest have additional counter weighting and tire requirements and may have other additional requirements and prohibited options. Please consult JLG* Parts Department for compatibility prior to purchase.

Additional notes for specific machines:

- ** Standard Equipment with Fall Arrest Platform.
- ***** Counter weight required, unless machine was factory equipped with Fall Arrest Platform.

Platform Soft Touch Kits

Protect your machine and surroundings with the JLG® Soft Touch Kit. JLG's Soft Touch System mounts a padding kit to the platform guardrails and to a frame suspended below the platform. If the padded framework comes in contact with an adjacent structure, proximity sensors will deactivate platform functions, for increased protection for the machine and its surroundings. For convenience, an override button permits "undoing."

Features/Benefits

- Increase the protection of the machine and its surroundings
- Designed for use near delicate areas
- Help increase the versatility of your machine
- Kits include instructions and all required components to install the Soft Touch to existing machines (applicable models only)

Machine Model	Platform Size	Serial Number Breaks	Kit Part Number
400S/460SJ	36 in. x 72 in.	0300069669 to Present	1001121592

600S, 600SJ, 660SJ	36 in. x 96 in.	0300067763 to Present	1001121593

NOTES:

- · Kits designed to fit ANSI spec machines only. For all other specs contact JLG® Parts Call Center.
- · If machine is equipped with a Fall Arrest Platform, contact JLG Parts Department prior to ordering.
- The information on this document supersedes all information on any "Platform Soft Touch Kits" document(s) published prior to the date of this document.

SkyGuard™ Installation Kits

SkyGuard™ provides the operator and control panel with enhanced protection that doesn't limit platform workspace or visibility. When the sensor is activated by approximately 50 lbs of force or more, SkyGuard stops all functions in use at the time and its unique reverse functionality—the first feature of its kind in the market—temporarily reverses most functions for a short period of time. SkyGuard is available exclusively from JLG. Check out the SkyGuard video at http://www.jlg.com/en/destination/skyguard.

Features/Benefits

- Can be activated from a variety of angles
- Sensor bar break-away feature for extreme conditions
- Temporarily reverses most, but not all, functions that were in use at the time of activation for less than a second's worth of time
- Does not limit platform workspace or operator visibility
- No moveable parts means there's no need for scheduled or additional maintenance
- A horn and optional blue flashing beacon (sold separately) alert other workers on the job site to sensor activation
- Resets by cycling foot switch or e-stop
- Kit includes all required components, hardware and instructions
- Can be installed on most combustion-powered JLG boom lifts manufactured in 2004 and later
- Also available on E-booms
- Not available on new platforms (*kit coming soon).
 If unsure, please contact the Parts Dept to confirm which platform you have.

Horn sounds upon operator contact with the bar.

The auto reverse feature activates for most functions.

Refer to the following page for detailed application information.

SkyGuard™ Installation Kits (cont.)

- 1. Identify which ground control module your machine is equipped with by using the photographs below (UGM Universal Ground Module).
- 2. Refer to the chart on the next page to determine which kit is applicable to your machine.

NOTE:

- $\cdot \ Complete \ kit \ for \ machines \ without \ Universal \ Ground \ Module \ contains \ Platform \ Sensor \ Installation, \ Optional \ Blue \ Beacon \ and \ UGM \ Conversion.$
- · Complete kit for machines with Universal Ground Module contains Platform Sensor Installation and Optional Blue Beacon.
- · Kits cannot be used in conjunction with any type of platform console cover.
- · SkyGuard is not available on the 150HAX.
- · To facilitate installation of an existing SkyGuard product on a new platform, customers will need to purchase the SkyGuard Replacement Kit separately (P/N 1001199928).

Telehandler Fender Kits

Kits include all required parts to install four fenders on your telehandler. Fenders help to protect your investment while reducing the debris thrown into the air from tire rotation.

Features/Benefits

- Kit includes everything required to install four fenders
- Help protect your investment
- · Keep your telehandler clean
- Requires one kit per machine

Speed Limiting Shifter Kits

Due to the increasing amount of job sites with speed restrictions, JLG has developed a speed limiting shifter kit. This kit eliminates the option of fourth gear for the operator. The kit can also be transferred from machine to machine.

- Available for different telehandler models
- Disables operator use of fourth gear
- Kits include instructions and all required hardware
- Designed for use in areas with speed restrictions

High Pressure/High Temperature O-Ring Kit

JLG° offers you a High Pressure/High Temperature O-Ring Kit that comes with five different trays of various o-ring types and sizes.

Features/Benefits

- Designed with JLG® equipment in mind
- Higher durometer rated O-Rings for high pressure applications
- Includes one tray of the most common SAE sizes
- Two trays of back-up rings
- Two trays of Viton O-Rings
- Replacement and indivdual size refills available
- · Bin and refill kits contain 10-20 O-Rings

Case Dimensions: 9.75 in. High 11.5 in. Wide 7.0 in. Deep

Item No. 7025683

Item No. 1001148903

Deutsch DT Connector Kit

Features/Benefits

- All of the most popular Deutsch DT connectors and pins used on JLG[®] equipment
- Packaged in one convenient box
- Replacement items available
- Suitable for shop or service trucks
- Can be utilized on anything with Deutsch DT connectors or pins
- Reduced component pricing when purchased as a kit
