Helping To Keep Your Machine's Productivity Rolling

The JLG direct-ship tire program provides aerial and telehandler tires, wheels, and tire assemblies for JLG® aerial lifts and JLG, SkyTrak®, Lull and Gradall telehandlers. Our program includes pneumatic, foam filled, and solid tire assemblies available in the various tire brands that are authorized for replacement. The JLG direct-ship tire program will save you time and money by providing JLG-authorized tire products through ease of ordering and delivery directly to your door.

Program Features and Benefits

- Factory-approved
 - Replacement tires, wheels, and tire assemblies
 - Optional tire assemblies
- Orders exceeding \$2,500 may qualify for free shipping
 - Within continental US only
 - Outside US, free shipping to customer's freight forwarder
- Technologically advanced foam filling process
 - Mixes virgin foam with recycled product
 - Helps to reduce waste
- Many tires and assemblies available for shipment within one business day
 - Applicable to tires and assemblies on currently manufactured models
 - Order quantities may impede ability to ship within anticipated time

To Place an Order

- Online: onlineexpress2.jlg.com
- Call: 1-877-JLG-LIFT (1-877-554-5438)
- Fax: 1-800-733-8939
- Email: partsprograms@jlg.com

STEP 1. Locate the page number of the JLG-built machine.

TELEHANDLERS	
SKYTRAK 6036	26
SKYTRAK 6042	27
SKYTRAK 8042, SKYTRAK 10042 & 10054 LEGACY	28
LULL 644E-42	29
LULL 944E-42, LULL 1044G-54 SERIES II	30
JLG 534D-9, JLG 534D-10 & 544D	31

JLG G5-18A, G5-19A, G6-23A	33
JLG G6-42A	34
JLG 7-23A & G9-43A	35
JLG G10-43A, JLG G10-55A	36
JLG G12-55A	37

LEGEND:	
TYPE - The type of assembly	DIRECTION - Does the tire have directional style tread
- PNEU = Pneumatic (air) Filled	FITMENT - How many wheel bolts per rim/wheel
- FF = Foam Filled	MACHINE ORIENT - Which side of the machine
- SLT = Pneumatic with Sealant Filled Consult Factory for Assistance	- R = Right
- SLD = Solid Tire Assembly	- L = Left
- MLD = Mold-On Tire Assembly	- R/L = Right or Left (non-Directional)
- ARB = Air Boss	CF = Consult Factory - Please contact a factory representative for additional information regarding that part
- HYDR = Hydro Filled Consult Factory for Assistance	

→ This example shows SkyTrak 6036 on page 26

STEP 2. Select the criteria per your machine for the replacement part number.

SkyTrak 6036

Tire Size	Type	Directional	Fitment	Orientation	Assembly	DS Assembly	Tire Only	DS Tire Only	Wheel Only	DS Wheel Only

	Foam Filled		Right	7139161	70010073	8780036	7025108	7301056	70010067	
			Left	7139162	70010074	8780036	7025108	7301056	70010067	

→ This example would be a 13.00x24, pneumatic tire with a wheel fitment of 10 wheel bolts

STEP 3. Write the part number down and proceed to ordering via ONLINE EXPRESS.

Corresponding Tire Images Above:

- 1) Directional Tire, Lug Tread, G2/L2 Industry Code
- 2) Non-Directional Tire, Rock Tread, G3/L3 Industry Code
- 3) Non-Directional Tire, DuraForce® Tread

IMPORTANT NOTES ABOUT THE DIRECT SHIP TIRE PROGRAM:

- 1) JLG Ultra Booms use a specially formulated foam fill. Usage of non-specified foam fill in any Ultra Boom tire assembly may result in an unstable machine condition.
- 2) JLG recommends that when changing a tire assembly that both tire assemblies on the same axle be replaced at the same time.
- 3) Always verify correct replacement part number and/or approved variation from original equipment or market suitability by contacting our highly-trained customer contact center with your machine's ten digit JLG serial number.

RUBBER TRACKS

Take advantage of cost savings with rubber tracks now available through JLG. Available to fit a variety of machines including compact track loaders and mini-excavators, these rubber tracks are produced using high quality materials, providing better cost per hour than other tracks in their class.

Features and Benefits

- Longer life due to forged metal pieces, which are stronger than typically used cast iron pieces
- Elimination of weak spots through strength and flexibility of continuous wound cables
- Reduction of loose parts causing down time and expensive repairs, due to design elements that reduce vibration
- Fulfillment sites across the country for shipment from closest stocked warehouse
- Free freight on orders over \$2500

Compact Track Loader

SOLID SKID STEER ASSEMBLIES

Flat tire downtime is the most costly issue associated with tire failure, resulting in the loss of machine utilization, idle workers, lost billing and more. If you're running on pneumatic tires, you're at risk for a flat. Switch to solid skid steer assemblies from JLG.

Features and Benefits

- Eliminates 100% of downtime due to flats
- Durable natural rubber compound construction for 3-5 times longer life than standard pneumatics
- Aperture technology provides cushioned ride
- Aggressive, deep treads provide traction in all conditions
- Wheel and tire assemblies bolt directly to your machine to have you working in minutes

SOLID BACKHOE ASSEMBLIES

Tired of downtime due to flats? Solid backhoe tires may be the solution you are looking for. A specially prepared formula provides the sturdy structure, and enhances the different functions of these solid tires. A two-ply nylon cord reinforces the tire rim to help these solid tires last longer than pneumatic tires. The combination of a strong compound and innovative design allow these tires to work efficiently and reliably. JLG is pleased to supply solid aperture tires for your fleet of backhoes.

Features and Benefits

- Eliminates downtime due to flats
- Aperture technology provides good shock absorption
- Resistance against abrasion and breakage
- Deep tread pattern
- Tread pattern provides excellent disposal of mud and water
- Ideal for wet and muddy conditions, various types of terrain
- Last 4 times longer than pneumatic tires
- Solid assemblies are designed to bolt directly to your machine
